OLEDB 6.8A	

Enhancements and revisions in Adagio JobCost 6.8B (2006.03.17)

♦ Compatible with Adagio Inventory 8.0B.

♦ The field 'GL transaction date' has been added to the Recognize Revenue and Expenses screen. It defaults to the session date. This date is used for the revenue transactions generated, which in turn determines the period to which they will be posted in Adagio Ledger.

♦ The Total on the Bill/Payment Posting Journal was always zero in the 6.8B (2005.09.28) version.

♦ Notes entered in the main note section of a Job were not saved.

Enhancements and revisions in earlier versions of Adagio JobCost 6.8B

♦ Refer to the Readme help file for details of enhancements and revisions in earlier versions.

Installing

To install Adagio JobCost from the Adagio Product CD you need the serial number and install code from the Product Label that came with your CD.

If you are installing a Service Pack you do not need to enter a serial number or install code. However, a previous version of Adagio JobCost 6.8B must be installed before the Service Pack can be installed.

To install Adagio JobCost, insert the CD in the drive. If the install program does not start automatically, run ADAGIO.EXE from the root of the CD. Once the install program is running you can click the View button for detailed instructions in the Readme help. If Adagio JobCost is installed on a network, you must also do a workstation install for each workstation running Adagio JobCost. Refer to the manual or "Installing on a network" in the Readme help for instructions.

To install the Adagio JobCost Service Pack, run the Service Pack program and follow the instructions on the screen. After installing the Service Pack, and depending on the version you were running prior to installing it, a workstation install may be required at each station running Adagio JobCost. To determine if a workstation install is required, start Adagio JobCost at the station. The workstation install will be automatically started if required. Note: If you are updating multiple applications at the same time, it may be faster to run the all workstation install to update all applications at once on the station. Refer to "Installing on a Network" in the Readme for instructions.

-- over --

Note 1: Adagio Payables must be version 6.8B (2005.01.12) or later. Adagio Receivables must be version 6.8B (2004.05.07) or later. Adagio BankRec must be version 6.8B (2004.11.30) or later. Adagio Inventory must be 8.0B or later. Adagio Invoices must be version 6.8B (2005.01.13) or later.

Note 2: Adagio JobCost and Adagio Time&Billing cannot be used on the same company database.

Note 3: Adagio JobCost requires Adagio Ledger 8.0C or higher if you have a multi-currency GL database.

Converting ACCPAC® Plus™ Job Costing

Refer to the manual and Readme help (see Important Notes section) for conversion instructions.
