Adagio® Time&Billing Release Notes 6.8A (2002.06.17)

Enhancements and problems fixed in Adagio Time&Billing 6.8A (2002.06.17)

- ◆ Initial release of Adagio Time&Billing.

Installing

To install Adagio Time&Billing from the Adagio Product CD, you need the serial number and install code from the Product Label that came with your CD.

To install Adagio Time&Billing, insert the Product CD or run ADAGIO.EXE from the root of the CD. Once the install program is running, you can click the Help button for detailed instructions. If Adagio Time&Billing is installed on a network, you must also do a workstation install for each workstation running Adagio Time&Billing or TimeKeeper. Refer to the manual or help for workstation install instructions. Or, run the All Workstation Install instead (\SOFTRAK\ALLWKST\ ALLWKST.EXE) which allows you to do only one workstation install on each workstation (rather than having to do a workstation install for each product on each workstation). Refer to "Installing on a network" in the Readme help for instructions.

Adagio Time&Billing requires Adagio Receivables to run. Adagio Receivables must be version 6.8A (2002.06.10) or later. The Adagio Receivables 6.8A (2002.06.10) PTF is included on the Adagio Time&Billing Product CD. To install the PTF, run ARPTFNO20020610.EXE from the PTF directory on the CD.

Adagio Payables is optional. If used, **Adagio Payables must be version 6.8A (2002.06.18) or later.** The Adagio Payables 6.8A (2002.06.18) PTF is included on the Adagio Time&Billing Product CD. To install the PTF, run APPTFNO20020618.EXE from the PTF directory on the CD.

* **Note:** The compatibility information displayed at the top of this Release Note may only be as current as the actual release date (indicated in brackets after the version number). To get the most up-to-date compatibility information for this and other products, see the Compatibility Chart on Softtrak's web site at www.softtrak.com or contact your Softtrak dealer or consultant.
